## Learn About: Astronaut Life in Space!

Watch the Wonderama Video on YouTube: [Astro Mike Massimo's Life In Space!](#)

*(If needed, use the video title to search for this video)*

### Learn About Astronaut Mike Massimo's Life in Space

- On Earth a space suit can weigh anywhere from 180-310 pounds. In space it weighs nothing!
- In space astronauts eat lots of foods people eat on Earth, like mac and cheese, hamburgers and hotdogs.
- Astronauts can tweet from space, and Mike was the first astronaut to ever do this!
- Astronauts use a hose instead of a toilet to go to the bathroom in space. (And urine is recycled for drinking water!)

### What Do You Want to Know?

Write down at least 3 questions you would want to ask Mike (or any astronaut) about space.
